

WorkshopCharger2.0 with Detachable Cables

PartsPlus⁺

Silent - User Friendly - Powerful

Follow us

The 35A WorkshopCharger 2.0 is a versatile and efficient Battery Charger and Power Supply that helps you save time in the Workshop. It is delivered with a Detachable Charging Cable, a Wall Bracket and an Isolated Hook that makes it easy to place wherever you need. The new WorkshopCharger is compatible with all types of automotive Batteries - both lead/acid and Li-ion. It has no fan and produces no noise. The power supply function provides continuous current and stable voltage and helps you avoid lost data during ECU programming or a Battery change.

- User Friendly**
The hook and holder for the Charging Cable, make the Charger easy to move around
- Optimal Charging**
Temperature compensation
- Silent**
No fan, no noise
- User Friendly**
Intuitive interface and display
- Safe**
Protects vehicle electronics - non-sparking, reverse polarity protected and short-circuit proof
- Flexible in Use**
Detachable Cables
- Durable**
