

ShowroomChargers

Enhance the Customer experience

Parts**Plus**⁺

Powerful and discreet Chargers

Follow us

ShowroomChargers feature the latest charging technology, provide excellent efficiency and have silent, fanless cooling. They are easy to operate, with an intuitive display, and ideally suited for maintenance charging - ensuring that your vehicles are always ready for display and demonstrations of technical features. The Detachable Cables and compact size make the ShowroomChargers easy to move and discreetly place under the vehicle, helping you give the best possible first impression.

ShowroomCharger 50A

Efficient and discreet for premium showrooms

The new ShowroomCharger 50A is a new premium Charger in the Showroom range. It is compatible with all types of automotive Batteries - both lead/acid and Li-ion, and has a 14.7 button so you can change the voltage according to the Battery type in the vehicle. A power supply function is also available, which delivers 13.7V without the presence of a Battery.

The Detachable Cables can easily be passed through the Engine compartment, making it possible to discreetly place the charger under the vehicle during charging.

Intuitive Display
Easy to use and monitor

Silent
No fan, no noise

Future Proof
USB connector for programming if needed

Compact
Small Clamps make it easy to use with a closed hood
